Dunkley Legacy Cast Iron Pitter

The Early Cast Iron Version of the Dunkley Pitter is still actively used in the world today. With proper maintenance these pitters last many decades. Dunkley supports these pitters with replacement parts and service, and can even convert them to the newer Stainless Steel Version - SSP-2800. Although no longer produced, Dunkley is proud of these pitters and the work they have performed for many years!

OPTIONS FOR LEGACY PITTERS:

Upgrade to latest Model (SSP-2800)

On-Site Evaluation / Service

In-House Evaluation / Service

Repair / Refurbishment / Calibration

Belt Drive Upgrade

Centralized Grease System

VFD Drive (Speed Adjustment)
